Multi-languages

Code read

Clear fault code

O2 monitor test

Engine test

Easily Determines cause of Check Engine Light(MIL)

Read & Clear & Stores&playback Data.

Read live PCM datastream

Display live O2 sensor & EVAP system data.

Retrieve vehicle information(VIN,CIN and CVN)

**Work on ALL 12V OBD II certified vehicles,
Including domestic and imported Gasoline and Diesel.
Hybrid and electric vehicles are not supported.**

Why the fault light is on ?

Read Codes

Read the fault code directly to understand the cause of the car fault

Erase Codes

Clearing the car's fault lights can temporarily restore the car to normal (car failures need to be repaired immediately.)

Data Stream

You can view all vehicle data to better understand the health of the car. You can also select the data stream for ripple analysis according to the situation to understand the changes in the car.
